PROFILE

Dynamic and driven student with a strong dedication to continuous learning and skill development. Adept in leveraging creativity, problem-solving, and critical thinking to excel in academic pursuits. Proficient in programming and Data Science, eager to apply expertise in real-world scenarios.

EXPERIENCE

Intern - Data Scientist

Jan-Feb, 2024

InspiriSYS Solutions Limited

This transformative journey allowed me to bridge the gap between theory and practice, as I delved into the intricacies of Data Science. I gained invaluable insights, faced challenges, adapted, and celebrated achievements that have significantly fortified my academic and professional growth. I worked with Python on several topics such as:

- Data Analysis and Visualization with Regression Analysis
- Automated data analysis & visualization for all CSVs & excel files
- AI & ML for Outlier Detection(algorithms-K-means, KNN, SVMs, etc.)
- Autoencoders for Fraud Detection in Bank Transactions (Anomaly Detection)
- Theoretical Learning - LSTMs, Neural Networks, and GANs (General Adversarial Networks)
